

## The Carnivorous Plant Society

<http://www.thecps.org.uk>

### The gemmae swap is for CPS members only, here is how it works:

- 1:** Depending on the plants producing gemmae, the swap will start late October and finish at the end of January.
- 2:** Please let us know as soon as possible what gemmae you have to offer so we can start the list on the web site.
- 3:** There is no limit on how many times you can use the swap. You can swap one for one or buy gemmae at £1.50 a packet. You may also just donate gemmae. All money raised will go to both The Seed Bank & Conservation Funds.
- 4:** Postage must be paid for with each order. Please send a self addressed envelope with your completed order form.
- 5:** Please note that postage costs have changed within the UK. So due to the fact that the gemmae require protection from the postal service machines e.g 'bubblewrap', all letters will be classed as a 'Large Letter'. So would everybody using the swap shop please make sure that a 'Large First Class Stamp' is used minimum postage cost 44p (for up to 100g). And please remember to add some bubblewrap to pack the gemmae in too.
- 6:** Check the web site for the updated list of gemmae in the swap. <http://www.thecps.org.uk>

### How to pack your gemmae ready for posting.

Cut up some absorbent paper into small squares, damp the paper with a few drops of rainwater. Place the gemmae onto the damp paper square and fold in half, put this into a small plastic bag that seals up to stop the gemmae from drying out. Remember to label all the gemmae you send in. Use a padded envelope when sending gemmae in the post. **Please include a first class SAE** to get your gemmae back that you have ordered.

**Send your completed form to: - Langy, 89 Peniel Green Road, Llansamlet, Swansea, SA7 9AU.**
